

## AIR FRESH

### AIR CONDITIONING DEODORISER

#### DISCRIPTION

Contaminated air conditioning and heating/vaporizer can cause smelly, health-threatening mould and deposits. AIR FRESH provides optimal refreshment to the air conditioning and heating system.

#### CHARACTERISTICS

- Removes and neutralizes bad odors.
- Subtle lemon scent.
- Ventilation refresher.
- Leaves no stains.
- Easy to use.

#### INSTRUCTION MANUAL

1. Start the engine and let it run.
2. Turn on the air circulation system at full power and at the recirculation position.
3. Make sure that the air conditioning is on.
4. Shake before use.
5. Place the aerosol in the middle of the vehicle.
6. Turn on the aerosol by pressing the button once and close the doors.
7. Run the engine until a few minutes after full use of the aerosol.
8. Switch off the engine and leave the vehicle standing for about 10 minutes with the doors open.

#### TECHNICAL INFORMATION

Form:	Aerosol
pH value:	Not determined.
Melting point/melting range:	Not determined.
Boiling point/Boiling range:	-44.5 °C
Flash point:	-97 °C
Flammability (solid, gaseous):	Not applicable.
Ignition temperature:	365 °C
Dissolution temperature:	Not determined.
Vapour pressure at 20°C:	8,300 hPa
Density at 20°C:	0.65 g/cm <sup>3</sup>
Solubility in/ Miscibility with water:	Not miscible or slightly miscible.

Contents: 12 x 150 ml/carton
